

EUTELSAT 5 West A

@ 5° West - C-Band

A major bridge between Africa and Europe, with impressive coverage of francophone TV communities and a footprint that spans four continents

Reaches a community of:

- A potential of 110 million TV households in Africa
- Numerous cable, MMDS and IPTV headends
- International services such as CFI and AFNEX providing live and non-live content to almost all the African broadcasters
- African broadcasters delivering their national or international signals from Morocco, Libya, Senegal, Kenya, Niger, Benin, Cameroon, Gabon, Congo, etc.

On this satellite, Globecast offers:

- Especially suited in order to reach the African TV market with a community of major regional and international programs
- The possibility to enrich the programming of local African broadcasters with their preferred satellite
- The leading satellite broadcasting African content received by cable, MMDS and growing IPTV operators in Europe and Africa
- Unequalled coverage of the French-speaking world, from France to francophone Africa, Canada, the Indian Ocean and Caribbean
- The ability to be received in Europe and the Middle East as well as the Eastern United States and South America, with receiving antennas from 1.80m

Carries a prime and diverse neighborhood:

- 100+ channels
- Key French overseas and international TV and radio channels including:
 - RFI, CFI, RCI, RTBF, Canal Algérie, TVE, Deutsche Welle
- Numerous African countries represented with channels including:
 - Télé Africa, CRTV, Télé Congo, Canal 2 International, Africa N°1, ORTB, KTN, AFNEX
