

# EUTELSAT 9B

@ 9° East - Ku-Band

Gain access to the fastest growing broadcast neighborhood and Globecast's largest HD platform in Europe

Reaches a large community of:

- 5 million established homes via DTH (1,3M) and cable (3,7M)
- 4 European Pay-TV packages
- EUTELSAT HOT BIRD 13's potential of 138+ million homes @13°E
- 38 countries covered over large Europe and MENA

On this satellite, Globecast offers:

- Powerful coverage over Europe, North Africa and the Middle East with receiving antennas as small as 60cm
- A choice position for HD TV, with a DTH HD DVB-S2 platform, operated from Paris
- Two DTH DVB-S platforms operated from Paris and London broadcasting a variety of major programs
- Content distribution to an increasing number of homes and cable headends
- A valuable location adjacent to EUTELSAT HOT BIRD 13's prime position @ 13°E, for receiving antennas equipped with a dual-feed LNB
- Attractive prices for the development of HD and ethnic channels

Carries a prime and diverse neighborhood:

- 475+ TV channels – including 65+ Free-to-Air
- Broadcasts in over 20 different languages
- BBC, Disney, ESPN, Euronews, CCTV9, Sun TV, Universal ...
- 70+ HD channels including M6 Suisse HD, TF1 Suisse HD, National Geographic, myZen.TV
- EUTELSAT HOT BIRD 13's 1085 TV and radio channels with 165+ in HD
