

# SES-6

@ 40.5° West - C-Band

The leading Latin American community in the sky, with easy access from Europe or the Americas and wide coverage to increase your audience

## Reaches a large community:

- 79 countries covered
- Immediate access to 24 million cable homes across Latin America and the Caribbean
- Potential of 5,000 cable headends
- Over 97% cable penetration, 100% in some countries

## On this satellite, Globecast offers:

- A single hop from Paris for multi-regional delivery throughout the Americas
- Access to one of the largest and most diverse broadcast neighborhoods in Latin America, with both regional and international channels
- Immediate access to a wide community of cable, MMDS and C-band downlinks with antennas as small as 1.80m

## Carries a prime and diverse neighborhood:

- More than 260 TV channels, 110+ free-to-air channels, 20+ in HD
- Key international content providers as: Disney, Fox, ESPN, MGM, VOA, Russia Today, SIC International, BBC, Bloomberg
- More Latin America-originated broadcast channels than any other satellite, representing all Latin American countries as: Rede Record, TV Globo, VTV Uruguay, Venevision, TV Brazil International, Claro Colombia, AMC channels, Destinos TV, Ecuador TV
